C012	Kavya	Vadodara	21	Female	Tablet	18000
C013	Suresh	Rajkot	30	Male	Mobile	22000
C014	Divya	Ahmedabad	26	Female	Laptop	55000
C015	Naveen	Surat	27	Male	Headphones	2500

SQL Queries

```
CREATE DATABASE customer_project;
USE customer_project;

CREATE TABLE customers (
  Customer_ID VARCHAR(10), Customer_Name VARCHAR(50),
  City VARCHAR(30), Age INT, Gender VARCHAR(10),
  Product VARCHAR(30), Purchase_Amount DECIMAL(10,2)
);

SELECT * FROM customers;
SELECT COUNT(*) AS Total_Customers FROM customers;
SELECT SUM(Purchase_Amount) AS Total_Purchase FROM customers;
SELECT AVG(Purchase_Amount) AS Average_Purchase FROM customers;
SELECT City, COUNT(*) AS Customer_Count
FROM customers GROUP BY City;
SELECT Product, SUM(Purchase_Amount) AS Total_Sales
FROM customers GROUP BY Product;
SELECT * FROM customers
ORDER BY Purchase_Amount DESC LIMIT 1;
```
